A BETTER RECOVERY AUDIT EXPERIENCE

CPRS Offers Innovative Solutions to Complex Invoicing Challenges

WHAT ARE THE NATURE OF ERRORS?

- + Unintended, but none-the-less present
- + Human generated
- + System enabled

Resulting From:

- + Complicated invoices 1,000s of line items long that pass through system checks without verification.
- + Sales tax applied to invoices unnecessarily.
- + Inconsistencies in deal application across items in an order.
- + Invoices submitted multiple times to Accounts Payable.
- + Charges inadvertently duplicated across separate invoices.
- + Information entered into the systems late.
- + Complexities in contracts.

Our Recovery Audit Solutions

ACCOUNTS PAYABLE AUDIT

A review of your Accounts Payable transactions, either from historical or current periods, aimed at identifying and recovering overpayments. This serves as both a proactive recovery process and a method of risk identification and compliance.

ACTIVE INVOICE REVIEW AUDIT

An innovative outsourcing solution equipped with real-time tech enabled protection that proactively eliminates the errors identified in the Accounts Payable (AP) process before they lead to overpayments.

CONTRACT COMPLIANCE AUDIT

In complex invoicing processes, overpayments can occur despite strong internal controls. CPRS's Contract Compliance Team will identify high-risk suppliers and categories, and then conduct a thorough review of all transactions down to the line-item level to identify and recover overpayments.

RETAIL MERCHANDISING AUDIT

A solution equipped with the depth and tools necessary to handle the largest third-party primary and secondary audits, as well as a platform-as-a-service designed to support internal recovery audit teams.

REVERSE SALES & USE TAX AUDIT

A practice that delivers the expertise necessary to identify instances where your company has inadvertently overpaid its sales tax obligations and is entitled to a refund.

OUR RESULTS SPEAK FOR THEMSELVES
