

WE ARE HIRING

Senior Database Developer Information Technology CPRS Analytics India Team

Position Summary:

As a Senior Database Developer at CPRS Analytics, you will develop and maintain scalable general business application databases and / or specialized utility program databases to meet internal and external business requirements. You will create logical and physical database specifications, analyze database requirements, design and implement database solutions with the aim of optimizing operational efficiency while implementing specified business needs. You will analyze and design new schema and modify existing databases used by existing and new applications. Database development in the application space will include review and input from our data team.

Key Skills & Abilities:

- » Expert in MS T-SQL programming providing normal create, read, update and delete capabilities in transactional databases.
- » Experience using Azure DevOps for agile project management and Git both for code repositories.
- » Experience designing and implementing MS SQLS SSIS packages.
- » Demonstrable experience in developing high performance data driven applications using the ReactJS framework, Microsoft Micro Services APIs and Microsoft SQLS databases.
- » Experience integrating enterprise applications with MS SQLS and very large datasets including the services required for delivering large data sets.
- » Proven ability to work within a diverse team as well as leading other developers and QA engineers to deliver application releases.
- » Master's degree in Computer Science, or Bachelor's degree in Computer Science with 10 years related work.

Mandatory Skills:

- » MS SQLS, MS T-SQL programming, Azure DevOps, Agile project management, Git, Stored Procedure dev, Prod db script change management, SSIS packages, ReactJS framework, Microsoft Micro Services APIs.

Benefits:

- » Official Work Location: Mysore, India. We are open for candidates from all corners of India.
- » Full-time, Direct employment with CPRS Analytics India Pvt. Ltd.
- » Remote work with existing office norm.
- » Standard benefits package includes medical insurance, PTO and paid holidays. We also have ongoing wellness initiatives and paid volunteer opportunities!
